Dear Brethren:

In some parts of the world, the elderly are honored and revered for their experience and wisdom. But too often, our society in America today does not accord senior citizens the respect they have earned.

I am proud that this is not the case for New Jersey Freemasons. Our Craft historically has been devoted to meeting the physical, social and emotional needs of our aging brothers and sisters. We have never strayed from our commitment to provide this loving care.

The need for health care services by the residents of our Masonic Home is ongoing, and has even dramatically increased in recent years. Our financial support must keep pace! There is simply no way to supply quality care to our residents unless we all make annual contributions.

I know of no other group of people that is more generous and dedicated to performing charitable good works than Freemasons. This is a matter of record! Therefore, I am asking our Blue Lodges to again lead the charge, and to assist our Masonic Home residents by participating in the Home's commemorative brick program.

By purchasing a brick, the Lodge's support of our Masonic Home residents is forever remembered. The cost of the brick reflects the current daily rate for care at the Home, and the proceeds will help our elderly brothers and sisters in need. The enclosed information provides more details about the program.

Thank you for helping to fulfill our solemn responsibility to those we are privileged to have in our care.

Fraternally yours,

William H. Berman
